🐙 github.com/malekhammoud — 📧 devpost.com/malekhammoud

TECHNICAL SKILLS

Languages: Python, C++, Java, TypeScript, JavaScript, SQL (PostgreSQL), Bash, HTML/CSS
Full-Stack & Backend: React, Node.js, Express, REST APIs, Web Scraping Pipelines, PostgreSQL, Storybook
AI & Machine Learning: Computer Vision (YOLOv5), Multimodal LLM Integration, Scikit-learn, Pandas, NumPy
Systems, Cloud & Security: Linux (Arch/Debian), Embedded Systems (QNX/RTOS), Docker, Azure, Git, AppSec (RBAC/Auth)

EXPERIENCE

Playtoon IT, Inc. Remote
Full-Stack Developer Intern Mar 2025 – Aug 2025

- Collaborated within a 15-member engineering team to build and ship production features for an interactive web platform.
- Engineered optimized UI state workflows and built secure media upload pipelines with automated profanity filtering.

Bryck Technologies Remote
Software Developer Intern Sep 2024 – Jan 2025

- Engineered a full-stack web application from design to production deployment for internal enterprise operations.
- Architected reusable React UI components via Storybook and managed PostgreSQL schema migrations in an Agile workflow.

TECHNICAL PROJECTS

IsMyTripSafe — Full-Stack / Automated Data Pipeline ismytripsafe.com
Creator & Lead Developer 2026

- Architected an autonomous destination safety intelligence platform serving **1,000+ monthly active users**.
- Engineered automated web scraping pipelines targeting international government datasets and travel advisory APIs.
- Implemented dynamic report generation algorithms and programmatic SEO infrastructure to drive autonomous traffic growth.

Flow Arch (Linux OS) — SourceForge Rising Star Award flowarch-os.github.io
Lead Developer & Maintainer Dec 2025 – Present

- Engineered a custom Arch Linux distribution with **700+ downloads**; built using Arch ISO tools and Calamares installer.
- Awarded the **SourceForge Rising Star Award** for rapid open-source community adoption and distribution stability.

Basil Home AI (Smart Appliance Prototype) — Hack the 6ix Winner basilhome.ca
Co-Creator & Embedded/AI Developer Jul 2025

- Engineered an AI smart appliance system; configured QNX RTOS on Raspberry Pi for low-latency embedded control.
- Trained YOLOv5 vision models for real-time inventory tracking; integrated multimodal LLM pipelines for recipe generation.
- Awarded Deloitte's "Best Use of AI for Green" at Hack the 6ix for embedded resource efficiency and practical utility.

EDUCATION

McMaster University Hamilton, ON
Honours Bachelor of Science in Computer Science (Co-op) Sep 2026 – Apr 2030 (Expected)

- **Core Focus:** Data Structures & Algorithms, Systems Programming, Software Engineering Methodologies.

Western University London, ON
Western's Initiative for Scholarly Excellence (WISE) – Concurrent Dual Enrollment Sep 2025 – Dec 2025

- Completed competitive university-level coursework: Computer Science I (**97%**), Intro to Data Science (**92%**).

London Central Secondary School London, ON
Ontario Secondary School Diploma Sep 2022 – Jun 2026

- **Leadership:** President of STEM Club; Co-President of Math Club and Central Programming Alliance (Hack Club).
- Deployed a self-hosted DMOJ competitive programming judge on Azure to support 50+ active student developers.

HONORS, AWARDS & SECURITY RESEARCH

Vulnerability Research (Bugcrowd): Awarded security bounty by **Intercom** for discovering zero-click PII exfiltration via indirect prompt injection in Fin AI; identified API broken access control (RBAC bypass) on **LaunchDarkly**.

Hackathons & Industry: Hack the 6ix Winner (Deloitte AI for Green, 2025) | Hack the North Top 32 Finalist / 250+ Teams (2025).

Academic & Scientific Honors: Canada-Wide Science Fair (Bronze Medal) | AP Computer Science A (5/5) | CCC (Senior Distinction).
